INTERVIEW SUMMARY

Applicant acknowledges the telephone interview of February 15, 2007 in which proposed amendments were discussed. At that interview, the Examiner asserted that a pointer to an object could be regarded as information concerning that object. It was agreed at that interview that an amendment to more particularly recite the nature of the information retrieved would be acceptable for distinguishing such information from the cited art. The Examiner suggested language similar to that recited in claim 2 would be acceptable if it were used in claim 1 to recite the nature of the information retrieved.
